Atak Textile Company is a cotton knitted fabric manufacturer located in Gaziantep/TURKEY. Atak Textile serves to fabric wholesaler and garment manufacturers all over the world, with its high quality and fast service.

Atak Textile Company is a cotton knitted fabric manufacturer located in Gaziantep/TURKEY. Atak Textile serves to fabric wholesaler and garment manufacturers all over the world, with its high quality and fast service.

20 Tons/Day, Tubular-Open Width, Single Jersey, Single Lacoste Pique, Double Lacoste Pique, American Lacoste Pique, Rib, Interlock, Camisole, Cardigan, Two Thread Fleece, Three Thread Fleece fabric compositions can be knitted between 100 gr/m2 and 500 gr/m2 range.

What We Do

We produce Knitted fabrics with composition of %100 Cotton, Cotton/Lycra, Cotton/polyester and Cotton/Polyester/Lycra.

PRODUCTION

Production Sections : Knitting, Dyeing, Finishing

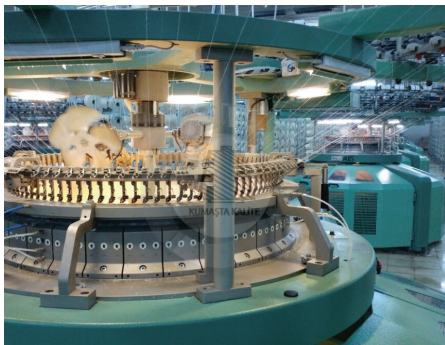

1) KNITTING

Knitted department of Atak Textile consists of latest brand tubular and open width, total of 60 knitting machines. Machines have lycra attachments in order to produce stretch fabrics.

The machines are capable of producing; Single jersey Fabric, Pique Fabric, Interlock Fabric, French terry Fabric, Fleece Fabric, Rib Fabric, Cardigan Fabric.

The mill is designed to produce cotton based fabrics.

1. %100 Cotton knitted fabric
2. Cotton Elastane knitted fabric
3. Cotton Polyester knitted fabric
4. Cotton Polyester Elastane knitted fabric

2) DYEING

Dyeing department of Atak Textile consists of latest brand HT dyeing machines in different capacity between 150 kg to 900 kg.

The machines are capable of dyeing;

1. %100 Cotton knitted fabric
2. Cotton Elastane knitted fabric
3. Cotton Polyester knitted fabric
4. Cotton Polyester Elastane knitted fabric

3) FINISHING

Finishing department of Atak Textile consists of latest brand balloon squeezing machines, drying machine, stenter machines, sanforizing machines, brushing machines, peach effect brushing machines.

Finishing machines processes;

1. Thermofixing of the elastane blended fabrics
2. Drying after dyeing
3. Silicon softening
4. Brushing
5. Peach effect brushing
6. Setting the width and gsm of fabric
7. Controlling the shrinkage

FABRICS

25 Tons/Day, Tubular-Open Width, Elastane, Full Elastane, Single Jersey, Single Lacoste Pique, Double Lacoste Pique, American Lacoste Pique, Rib, Interlock, Camisole, Cardigan, Two Thread Fleece, Three Thread Fleece fabric compositions can be knitted between 100 gr/m2 and 340 gr/m2 range.

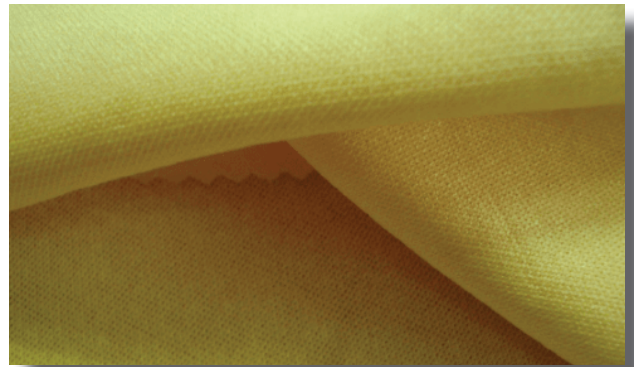

ATAK TEXTILE FABRICS

*The fabrics we produce have OEKO-TEX certificate.
Production can be made according to the desired
color.*

SINGLE JERSEY FABRIC

We can produce Cotton Lycra Single Jersey Fabric, Polyester/Cotton Single Jersey Fabric and Cotton Single Jersey Fabric. In addition, we can produce OE Cotton, Carded Cotton and Combed Cotton qualities upon request.

WIDTH/GSM/COLOR

We can produce in the desired width, weight and color. We can produce our Single Jersey Fabrics from 86 cm to 200 cm and from 105 grams to 250 grams. You can choose your colour in ATAK Colour Chart or Pantone Colors or you can give a Custom Color. You can visit our website for details.

Single Jersey Fabric Usage and Features

Features: Soft Touch, Smooth Surface, Hydrophilic, Absorbent, Comfortable, Stretchy, Flexible

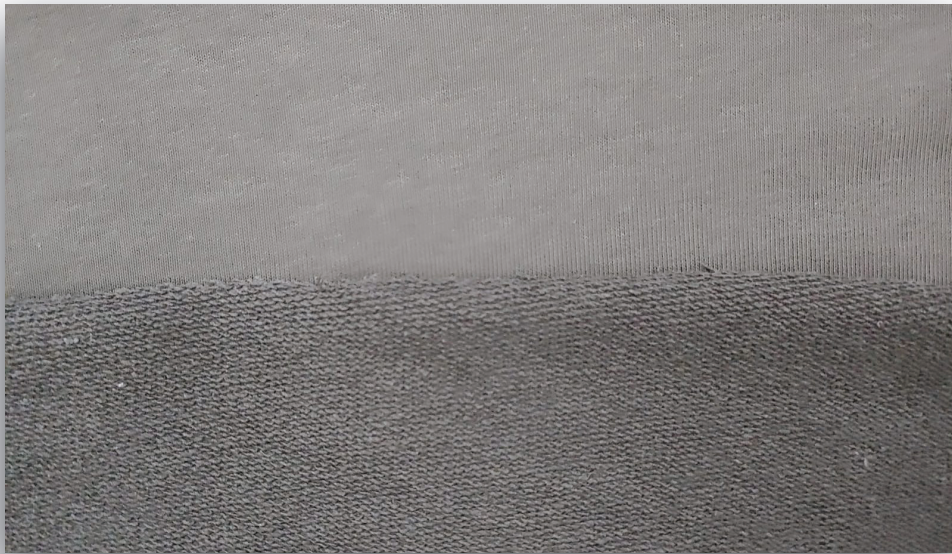

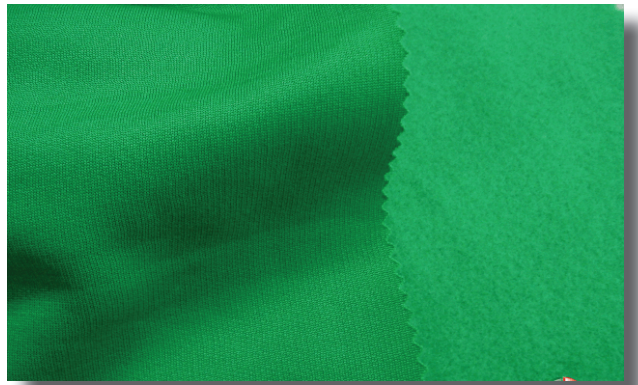

Usages: T-Shirts | Sweatshirts | Sweatpants | Sportswear | Pijamas | Babywear | Children's Wear | Tops | Tank Tops | Basics | Dresses | Underwear | Innerwears | Uniforms | Scarves

FOR DETAILS:

FLEECE FABRIC

We can produce cotton Cotton Fleece Fabric and Polyester/Cotton Fleece Fabric. In addition, we can produce OE Cotton, Carded Cotton and Combed Cotton qualities upon your request.

WIDTH/GSM/COLOR

We can produce in the desired width, weight and color. We can produce our Fleece Fabrics from 90 cm to 185 cm and from 240 grams to 400 grams. You can choose your colour in ATAK Colour Chart or Pantone Colors or you can give a Custom Color. You can visit our website for details.

Fleece Fabric Usage and Features

Features: Soft Touch | Smooth Surface | Hydrophilic | Absorbent | Comfortable | Dense Structure | Heat Insulation | Warm | Relatively Heavier | Non-Curl | Durable | Low Shrinkage

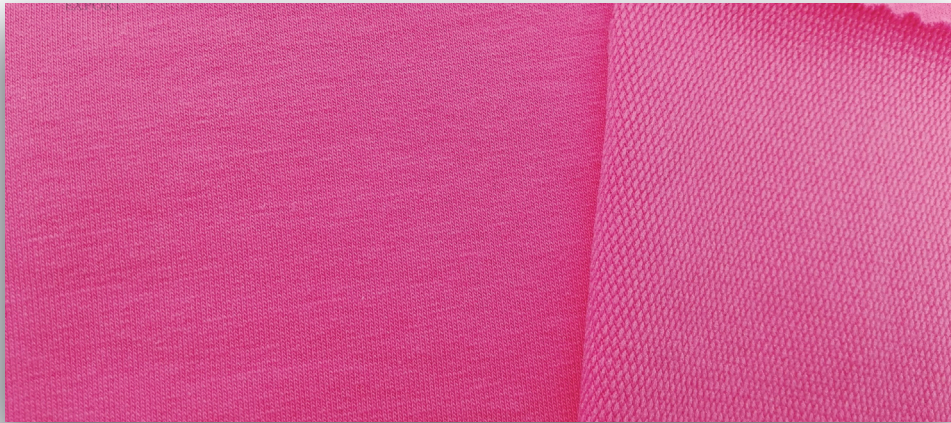

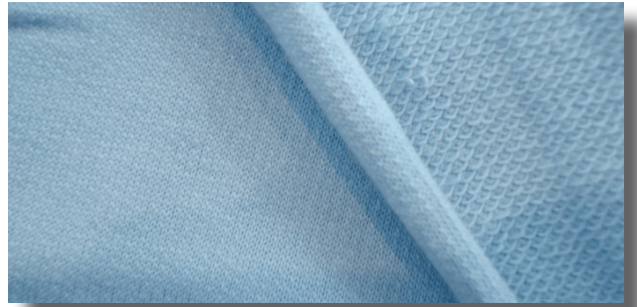

Usages: Sweatshirts | Sweatpants | Sportswear | Hoodies | Pijamas | Babywear | Children's Wear | Dresses | Uniforms

FOR DETAILS:

FRENCH TERRY FABRIC

We can produce cotton Cotton French Terry Fabric, Cotton/Polyester/Lycra French Terry Fabric and Lycra/Cotton French Terry Fabric. In addition, we can produce OE Cotton, Carded Cotton and Combed Cotton qualities upon request.

WIDTH/GSM/COLOR

We can produce in the desired width, weight and color. We can produce our French Terry Fabrics from 90 cm to 200 cm and from 160 grams to 320 grams. You can choose your colour in ATAK Colour Chart or Pantone Colors or you can give a Custom Color. You can visit our website for details.

French Terry Fabric Usage and Features

Features: Soft Touch | Smooth Surface | Hydrophilic | Absorbent | Comfortable | Stretchy | Flexible | Dense Structure | Heat Insulation | Warm | Relatively Heavier

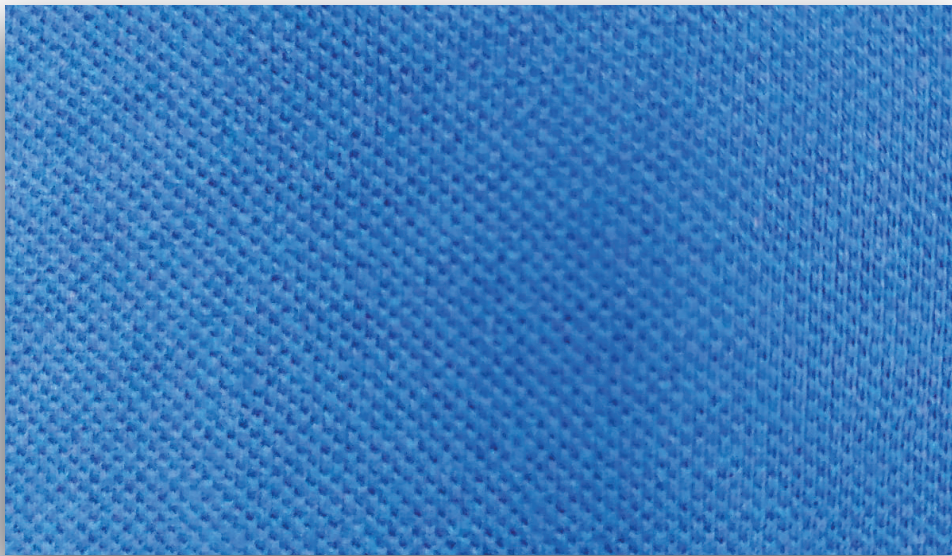

Usages: Sweatshirts | Sweatpants | Sportswear | Hoodies | Pijamas | Babywear | Children's Wear | Tops | Basics | Dresses

FOR DETAILS:

PIQUE FABRIC

We can produce Cotton Single/Double Pique Fabric, Polyester/Cotton Single/Double Pique Fabric and Lycra Single/Double Pique Fabric. In addition, we can produce OE Cotton, Carded Cotton and Combed Cotton qualities upon your request.

WIDTH/GSM/COLOR

We can produce in the desired width, weight and color. We can produce our Pique Fabrics from 110 cm to 220 cm and from 150 grams to 240 grams. You can choose your colour in ATAK Colour Chart or Pantone Colors or you can give a Custom Color. You can visit our website for details.

Pique Fabric Usage and Features

Features: Soft Touch, Smooth Surface, Hydrophilic, Absorbent, Comfortable, Stretchy, Flexible

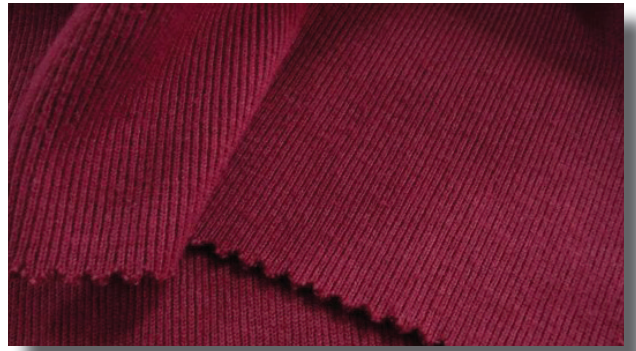

Usages: T-shirts, Sweatshirts, Sweatpanths, Sportswears, Pijamas, Tank Tops, Basics

FOR DETAILS:

INTERLOCK FABRIC

We can produce cotton Cotton Interlock Fabric, Polyester/Cotton Interlock Fabric and Lycra Interlock Fabric. In addition, we can produce OE Cotton, Carded Cotton and Combed Cotton qualities upon request.

WIDTH/GSM/COLOR

We can produce in the desired width, weight and color. We can produce our Interlock fabrics from 84 cm to 200 cm and from 160 grams to 260 grams. You can choose your colour in ATAK Colour Chart or Pantone Colors or you can give a Custom Color. You can visit our website for details.

Interlock Fabric Usage and Features

Features: Smooth Surface | Dense Structure | Heat Insulation | Warm | Relatively Heavier | Soft Touch | Hydrophilic | Absorbent | Comfortable | Stretchy | Flexible | Non-Curl

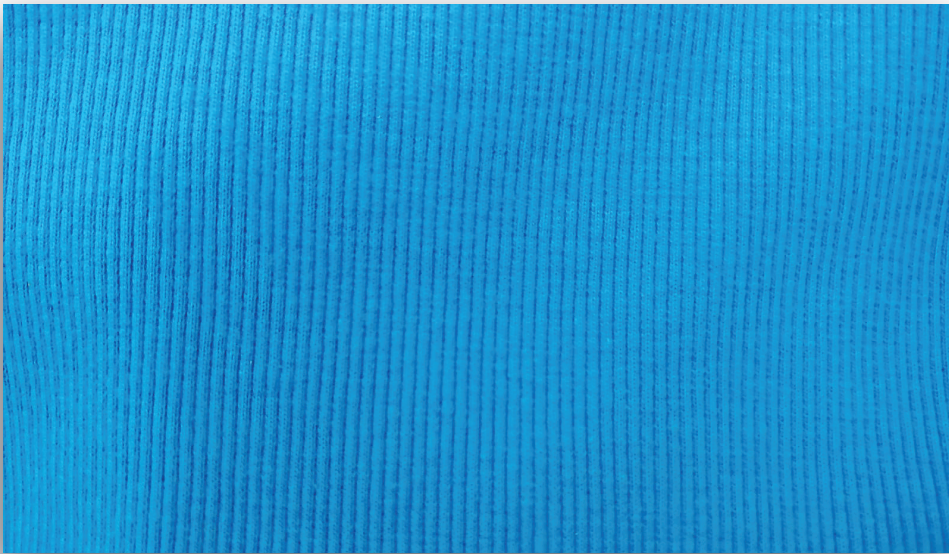

Usages: T-Shirts | Tank Tops | Tops | Basics | Dresses | Sweatshirts | Sweatpants | Babywear | Children's Wear | Pijamas | Sportswear

FOR DETAILS:

RIB FABRIC

We can produce cotton Cotton (1*1/2*1) Rib Fabric, Polyester/Cotton (1*1/2*1) Rib Fabric and Lycra (1*1/2*1) Rib Fabric. In addition, we can produce OE Cotton, Carded Cotton and Combed Cotton qualities upon request.

WIDTH/GSM/COLOR

We can produce in the desired width, weight and color. We can produce our Rib Fabrics from 86 cm to 195 cm and from 160 grams to 350 grams. You can choose your colour in ATAK Colour Chart or Pantone Colors or you can give a Custom Color. You can visit our website for details.

Rib Fabric Usage and Features

Features: Soft Touch | Smooth Surface | Hydrophilic | Absorbent | Comfortable | Stretchy | Flexible | Non-Curl

Usages: T-Shirts | Innerwears | Underwears | Tank Tops | Tops | Sweatshirts | Sweatpants | Sportswear | Hoodies | Pijamas | Babywear | Children's Wear | Tops | Basics | Dresses | Uniforms | Collar | Cuff
